Quality Products • Reliable Products • Affordable Products

LIQUID LAUNDRY DETERGENT

PRODUCT CODE: LD-83
 Package: 20 KG / 17,7 L Jerrycan
 pH Value: 12 - 13
 Dosage: 1-8 GR / L

It is an ideal product for your laundry. Provides a powerful cleaning. It has superior stain removal and cleaning power even at low temperatures. Thanks to its liquid structure, it does not damage washing machines, does not leave residue, does not cause clogging. With the help of special ion-holding components in its content, it prevents lime coming from the water, softens the water, thus giving your laundry softness.

POWDER DETERGENT

PRODUCT CODE: LD-84
 Packaging: 10 KG Bag
 pH Value: 8 - 11 (in 1% solution)
 Dosage: 1 - 5 GR / L

It is a non-bleach powder laundry detergent. It can be used safely with automatic washing machines and all types of industrial washing machines. It is also suitable for hand washing. It is suitable for hotels, hospitals, institutions and establishments, laundries and all types of laundry environments. It can be used with auxiliary washing and bleaching agents. It can be used with oxygen or chlorine bleach. It is effective at every temperature.

HEAVY DUTY OIL REMOVER

PRODUCT CODE: LD-86
 Packaging: 20KG/16.67 L Jerrycan
 pH Value: 12 - 14
 Dosage: 1 - 3 GR / L

It is used for the cleaning of heavy oily, dirty and blood stained laundry in hotels, hospitals, restaurants and factories. It is used as an auxiliary washing agent in pre-washing or main washing for cleaning very dirty and problematic laundry. It is suitable for washing white and colored, cotton, synthetic and mixed textiles.

OIL AND REMOVER BLOOD STAIN REMOVER

PRODUCT CODE: LD-85
 Package: 5 KG / 4,95 L Jerrycan (5 KG - 4 Package) - 20 KG / 19,8 L Jerrycan
 pH Value: 7-8
 Dosage: 1-2 GR / L

It is used in the cleaning of heavy oily, dirty restaurant, hospital laundry, cleaning laundry, pre-washing and to increase the power of the main washing agent. Neutral type can be used alone to wash all kinds of woolen and delicate laundry.

**OXYGEN BASED
POWDER BLEACH**

PRODUCT CODE: LD-90
Packing: 20 KG / Package

It is a safe bleach and stain remover with active chlorine powder organic ingredients in its composition. It is not recommended for colored clothing, but can be used in chlorine resistant colors. Thanks to the active ingredients in its formula, it first cleans and then bleaches the stained laundry. It is especially suitable for white and cotton textiles. It should not be used above 60 ° C.

OXYGEN BASED BLEACH

PRODUCT CODE: LD-89
Package: 20 KG / 18,5 L Jerrycan
pH Value: 1 - 2
Dosage: 1 - 3 GR / L

It is a multi-purpose stain remover and hygienic bleaching agent that you can safely use in your laundry. Its superior formula, when mixed with warm water, penetrates the fabric of the fabric. It safely removes the toughest stains. It is suitable for both dosing system and manual use. It can be used safely in hotels, hospitals, institutions and organizations, laundries with automatic washing machines and all types of industrial washing machines.

**AUXILIARY WASHING AGENT
CONTAINING ENZYME**

PRODUCT CODE: LD-91
Packing: 20 KG / Package

Its foam is controlled. TEAD contains enzymes. It gives excellent results in all types of laundry in all washing programs of automatic machines. Makes it clean without fraying. It can be used at any water temperature, it does not require pre-washing and boiling. The active substances it contains are biodegradable. It is economical, saves energy and time. It is suitable for use in industrial and domestic automatic washing machines.

**LIQUID SYSTEM LAUNDRY
SOFTENER**

PRODUCT CODE: LD-92
Package: 20 KG / 20,2 L Jerrycan
pH Value: 2 - 4

It softens the clothes and gives a pleasant smell. It is used in delicate textiles such as towels, bathrobes, napkins, tablecloths, curtains, woolen in hotel, hospital, restaurant and factory laundries. It makes it easy to iron. It prevents static electricity on the laundry during washing. It is suitable for liquid dosage system.

**HARDNESS REMOVER
ADDITIVE IN WASHING WATER**

PRODUCT CODE: LD-93
Packing: 20 KG / Package

It is an auxiliary washing agent that enables more efficient washing by reducing the water hardness in the washing water. It protects the laundry and washing machines from the bad effects of water if it is used together with the main washing detergents at the appropriate rate and continuously. It increases the effectiveness of the products used and ensures the use of less chemicals. Thus, it is both economical and nature friendly.

**GRINDING AUXILIARY
WASHING MATERIAL**

PRODUCT CODE: LD-94
Packing: 20 KG / 20 L

It is used in full and semi automatic washing machines. It dissolves the lime accumulated in very hard water or in the laundry washed in insufficient dosage, and the dirt that forms gray that sticks together with the lime. It easily dissolves lime deposits and deposits formed in washing machines and increases the performance in washing machines.

CREAM CLEANER

PRODUCT CODE: GP-60
Package: 8 KG / 5.3 L (8 KG - 4
Parcels) - 1.5 KG / 1 L (1.5 KG - 12
Parcels)
pH Value: 9 - 11
Dosage: Direct use

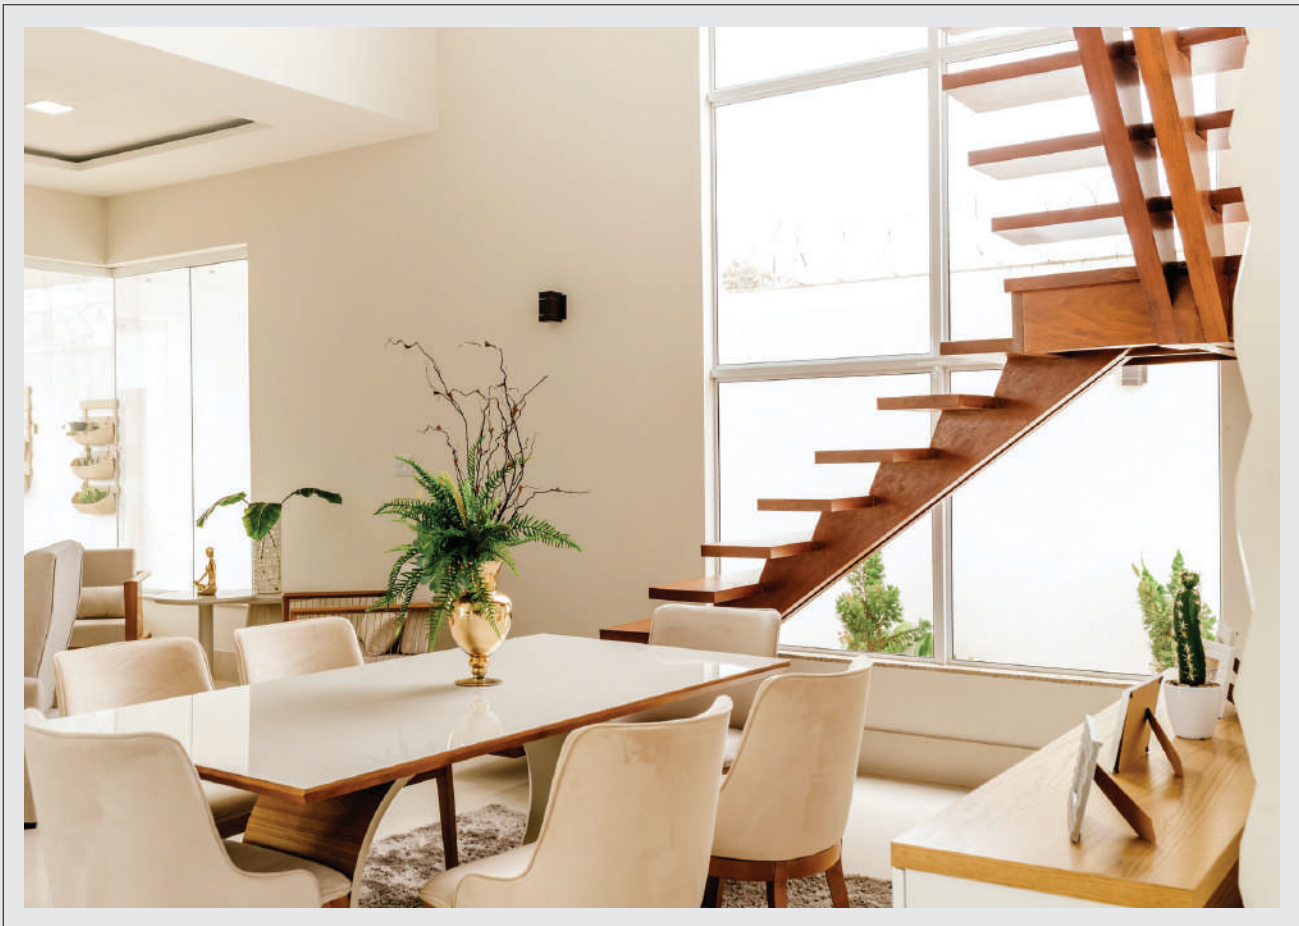

Cleans kitchen, toilet, bathroom tiles, tiles, ceramic surfaces and all other hard surfaces without scratching. It completely removes dirt and stains fixed with the minerals it contains, with the surface active effect it contains. Pleasant cleaning scent instead of bad odors.

BATH CLEANING LIQUID

PRODUCT CODE: GP-61
Packaging: 20KG / 19 L Jerrycan - 5 KG /
4.75 L Jerrycan (5 KG - 4 Boxes) - 1 KG /
0.95 L Jerrycan (1 KG - 12 Boxes) - 750
GR / 712 ML Spray (750 GR - 12 Pack)
pH Value: 1 - 2.5
Dosage: Direct use

It is used to clean the formations and dirt on all surfaces against contact. It is used on glass and metal surfaces in kitchens, toilets and bathrooms. It provides usage because it is liquid.

WC CLEANING LIQUID

PRODUCT CODE: GP-62
 Package: 20 KG / 19.04 L Jerrycan - 5 KG / 4.76 L Jerrycan (5 KG - 4 Boxes) - 1 KG / 0.95 L Jerrycan (1 KG - 12 Boxes)
 pH Value: 1.5 - 2.5
 Dosage: Direct use

It solves and cleans deposits, doping and rust stains on the inner surfaces of toilets. Provides hygienic care. It creates a spacious environment with its lasting pleasant fragrance.

THIN BLEACH

PRODUCT CODE: GP-63
 Packaging: 5 KG / 4.17 L Jerrycan (5 KG - 4 Package), 20 KG / 16.67 L Jerrycan
 pH Value: 12 - 14
 Dosage: 1-2 GR / L

It is effective in bleaching white clothes and removing difficult colored stains. It can be used in automatic washing machines and other washing machines in the laundries of hotels, hospitals, institutions and organizations. It is suitable both with the dosing system and manually. It is also effective in removing stains on plates and glasses in advertising. It provides a hygienic environment.

THICK BLEACH

PRODUCT CODE: GP-64
 Packaging: 5 KG / 4.17 L Jerrycan (5 KG - 4 Package), 20 KG / 16.67 L Jerrycan
 pH Value: 12 - 14
 Dosage: 1 - 2 GR / L

It is effective in bleaching white clothes and removing difficult colored stains. It can be used safely in automatic washing machines and industrial washing machines in the laundries of hotels, hospitals, institutions and organizations. It is suitable for both dosing system and manual use. It is also effective in removing stains on plates and glasses in kitchens. It provides a hygienic environment.

WOOD CLEANER

PRODUCT CODE: GP-65
 Packaging: 20 KG / 19,6 L Jerrycan, 5 KG / 4.9 L Jerrycan (5 KG - 4 Boxes)
 pH Value: 6 - 8
 Dosage: 5 - 10 GR / Liter

It cleans thoroughly on wooden surfaces. It cleans dirt, heat, stubborn stains without damaging the wood. It does not require rinsing. It preserves the natural brightness of the wood and gives a pleasant smell. Wooden parquet, kitchen cabinet, stairs, tables, window sills, etc. used for cleaning.

 pH Value: 6 - 8
 Dosage: 20 - 40 GR / Liter

It is a foam-controlled, neutral, alcohol-containing, fragrant, daily cleaning and care product that can be used on all kinds of floors. It is used for cleaning daily dirt and oil on floors. It leaves no traces on glossy floors, and can also be used on polished surfaces.

GLASS CLEANING MATERIAL

PRODUCT CODE: GP-69
 Packaging: 20 KG / 20,2 L Jerrycan - 5 KG / 5,05 L Jerrycan (5 KG - 4 Package) - 750 GR / 758 ML Spray (750 GR - 12 Boxes)
 pH Value: 7 - 8
 Dosage: Direct use

It gives excellent results in cleaning shiny surfaces such as glass and mirrors. It leaves no trace. Provides quick drying, leaves a pleasant odor.

POLYMER BASED POLISH

PRODUCT CODE: FC-78
Packaging: 5 KG / 5L Jerrycan (5 KG - 4 Package)
pH Value: 8.1 - 8.4
Dosage: 20 - 30 ML / Meter²

It is a polymer-based polishing agent used for polishing surfaces such as linoleum, PVC, marble and mosaic. While polishing the surfaces, it protects from external factors by forming a durable surface. It facilitates the daily cleaning of surfaces and is hygienic since it prevents re-contamination.

FOAMED CARPET SHAMPOO

PRODUCT CODE: GP-67
Packaging: 5 KG / 4.9 L (5 KG - 4 Parcels)
pH Value: 7 - 8
Dosage: 30 - 100 GR / Liter

It is a fragrant, foamy, cleaning agent used in cleaning all kinds of carpets, fabric covered surfaces, upholstery. It is used for cleaning carpet, sofa and all kinds of textile upholstery.

ALKALI FOAMED CASE WASHING MATERIAL

PRODUCT CODE: CP-46
Packaging: 20 KG / 18,18 L Jerrycan
pH Value: 12 - 14
Dosage: 20 - 50 GR / Liter

It is a product that removes high alkali, protein and organic oils used for cleaning plastic cases and trays in the food industry, production and service. It reduces the risk of cracking in plastic materials and extends the life of the material. It can be applied as foam with pressure cleaning machines and is also suitable for hand washing.

CRYSTALLIZED POLISH

PRODUCT CODE: FC-79
Package: 5KG / 4,35 L Jerrycan (5 KG - 4 Package)
pH Value: 1 - 3
Dosage: 15 - 20 ML / Meter²

It is used for the cleaning of heavy oily, dirty and blood stained laundry in hotels, hospitals, restaurants and factories. It is used as an auxiliary washing agent in pre-washing or main washing for cleaning very dirty and problematic laundry. It is suitable for washing white and colored, cotton, synthetic and mixed textiles.

GENERAL CLEANING LIQUID

PRODUCT CODE: GP-70
 Package: 20 KG / 19 L Jerrycan - 5
 KG / 4,75 L (5 KG - 4 Boxes) - 790
 GR / 750 ML (750 ML - 12 Boxes)
 pH Value: 10 - 12
 Dosage: 3 - 10 GR / Liter

Thanks to its special formula, it can be used on carpet, seat, leather, hard plastic, PVC, sunbed, vehicle interior, tire tracks, walls, glass, stainless steel surfaces, ceramic, marble, linoleum, bathroom, bathtub and armature surfaces and vending machines for large area cleaning.

FOAM ADJUSTABLE CARPET SHAMPOO

PRODUCT CODE: GP-68
 Package: 5 KG / 5 L (5 KG - 4
 Package)
 pH Value: 7 - 8
 Dosage: 50 - 100 GR / Liter

It is used with spray-suction wet type carpet machines. Its foam is controlled. It is applied after the dust is removed by dry vacuuming. It is used in carpet and seat cleaning.

DUST COLLECTING MATERIAL

PRODUCT CODE: FC-77
 Package: 5L / 4,05 KG Can (5L - 4
 Boxes) - 750 ML / 607 GR (750 ML -
 12 Boxes)
 pH Value: 6 - 8
 Dosage: Direct use on the surface

It is used to collect dust and coarse dirt accumulated on all kinds of polished and bright floors from the surface with a dry mop without the need for wet mopping. It brightens the surfaces and delays dusting.

HYDROGEN PEROXIDE BASED CLEANING AGENT

PRODUCT CODE: CP-43
 Packaging: 20 KG / 15.75 L Jerrycan
 pH Value: 1 - 3 (in 1% solution)
 Dosage: 5 - 20 GR / Liter

It is applied in all areas of the food industry, tanks, pipes, filling machines and CIP systems. It is an oxygen-based hygiene provider. It is a colorless, clear liquid substance. It can be used on stainless steel surfaces. Its hygiene effect is very good and can be easily rinsed.

**ALKALI FOAMED
CLEANING AGENT**

PRODUCT CODE: CP-32
 Package: 22 KG / 18,02 L Jerrycan
 pH Value: 11 - 13
 Dosage: 20 - 40 GR / Liter

It is suitable for use in cleaning heavily soiled surfaces and equipment with foam cleaning system. It easily cleans heavy oil, dirt, protein and blood on surfaces. Thanks to its effective and stable foam, it provides a more effective cleaning as it can hang on vertical surfaces.

ACIDIC CIP CLEANER

PRODUCT CODE: CP-44
 Packaging: 20 KG / 15.75 L Jerrycan
 pH Value: 1 - 3
 Dosage: 5 - 10 GR / Liter

It dissolves milk stones, protein residues and residues such as lime and rust formed by water, and is used in acidic cleaning of closed systems, acidic cleaning of equipment such as milking machines and milk collection containers. also cleaning closed systems (evaporator, pasteurizer and sterilizer), pipes and tanks, equipment through which raw milk passes.

**ALKALI CIP
CLEANING AGENT**

PRODUCT CODE: CP-40
 Package: 22 KG / 18,02 L Jerrycan
 pH Value: 12 - 14
 Dosage: 10 - 100 GR / liter

It is used effectively in alkaline cleaning of heated and unheated closed system equipment. It is also used in alkaline cleaning of holding and mixing tanks and other equipment. It provides a definitive solution for cleaning proteins, carbohydrates and fats in closed systems (evaporator, pasteurizer and sterilizer). It is suitable for use with dosing units. The inhibitors it contains prevent the tarnishing of stainless, aluminum equipment.

ACIDIC FOAMED CLEANER

PRODUCT CODE: CP-35
 Package: 25 KG / 16,8 L Jerrycan
 pH Value: 1.5 - 2.5 (in 1% solution)
 Dosage: 20 - 80 GR / Liter

It is a concentrated acidic cleaning product used for milk tanks, tools, equipment, jug, boiler and floor cleaning in the food industry, in open areas. It dissolves lime and rust, cleans oil and protein residues. It is suitable for use with foam application systems and equipment.

QAC BASED CLEANING AND DISINFECTION LIQUID

PRODUCT CODE: CP-34
 Package: 20 KG / 20,2 L Jerrycan
 pH Value: 6 - 8
 Dosage: 5 - 20 GR / Liter

It is used to disinfect all surfaces (kitchen surfaces, walls, floors, tools and equipment) that foodstuffs come into contact with. It prevents the formation of bad odors. Contains QAC type disinfectant material. It provides hygienic conditions on all surfaces that foodstuffs come into contact with.

CHLORINE FOAMED CLEANER

PRODUCT CODE: CP-33
 Packaging: 20 KG / 17,9 L Jerrycan
 pH Value: 12 - 14
 Dosage: 20 - 100 GR / Liter

It is used in the food industry to provide cleaning and hygiene. It is a foamy liquid product that provides cleaning and hygiene of open spaces, floors, tools and equipment. It is effective on protein, oil and blood stains. It is an effective hygiene provider because it is chlorine-based.

INDUSTRIAL DISHWASHER POLISH

PRODUCT CODE: K-15
 Package: 20 KG / 20 L Jerrycan 10KG / 10 L Jerrycan
 pH Value: 2.0 - 3.5
 Dosage: 0.2 - 1 ML / L

It is used with dosage pumps in industrial dishwashers in hotels, hospitals, restaurants and all kinds of businesses. It prevents the formation of lime stains on the dishes, ensures that they come out spotless, bright and dry. Used with "ROSELIHT TRITON K-14" Industrial Dishwasher Detergent. It prevents lime formation in the machine. It is effective in soft and medium hard water.

INDUSTRIAL DISHWASHER DETERGENT FOR HARD WATER

PRODUCT CODE: K-12
 Package: 25 KG / 21,7 L Jerrycan
 pH Value: 12 - 14
 Dosage: 2 - 6 ML / L

It is used in places such as hotels, hospitals, restaurants and industrial dishwashers in all kinds of businesses. It is used with dosage pumps fitted to industrial type dishwashers. It gives excellent results in hard water. Used with "MR.DASS K-13" rinse additive. If the dosage is adjusted according to the water hardness, it prevents lime accumulation. It is not suitable for aluminum.

**BOTTLE WASHING
DETERGENT**

PRODUCT CODE: CP-49
Packaging: 25 KG / 19.23 L Jerrycan
pH Value: 12 - 14
Dosage: 10 - 100 GR / Liter

It is used effectively in alkaline cleaning of heated and unheated closed system equipment. It is also used in alkaline cleaning of holding and mixing tanks and other equipment. It provides a definitive solution for cleaning proteins, carbohydrates and fats in closed systems (evaporator, pasteurizer and sterilizer). It is suitable for use with dosing units. The inhibitors it contains prevent the tarnishing of stainless, aluminum equipment.

HAND DISHWASHING LIQUID

PRODUCT CODE: K-10
Packaging: 20 KG / 19,6 L Jerrycan, 5
KG / 4.9 L Jerrycan (5 KG - 4 Boxes)
pH Value: 7.0 - 9.0
Dosage: 1 - 3 ML / L

The high amount of special active ingredients it contains cleans the frozen oil, dirt and food residues without leaving any traces. STUFFING PRODUCT FOR CARBONIZED DIRT

PRODUCT CODE: K-10
Packaging: 20 KG / 19,6 L Jerrycan, 5
KG / 4.9 L Jerrycan (5 KG - 4 Boxes)
pH Value: 7.0 - 9.0
Dosage: 1 - 3 ML / L

It is a pre-soaking agent that removes oil, protein and starch stains. Plates, glasses, porcelain, stainless steel, etc. It enables stains such as dried tea, coffee, starch, protein to be realized by pre-dipping method. Hotel, hospital, restaurant, school, workplace such as plates, glasses, etc. It is used to remove stains such as starch, tea and coffee accumulated on it.

CARBONIZED DIRT AND OIL REMOVER

PRODUCT CODE: K-16
Package: 22 KG / 20,4 L Jerrycan, 5
KG / 4,65 L Jerrycan (KG - 4
Package), 750 ML / 806 GR
pH Value: 12 - 14
Dosage: Direct Use To The Surface

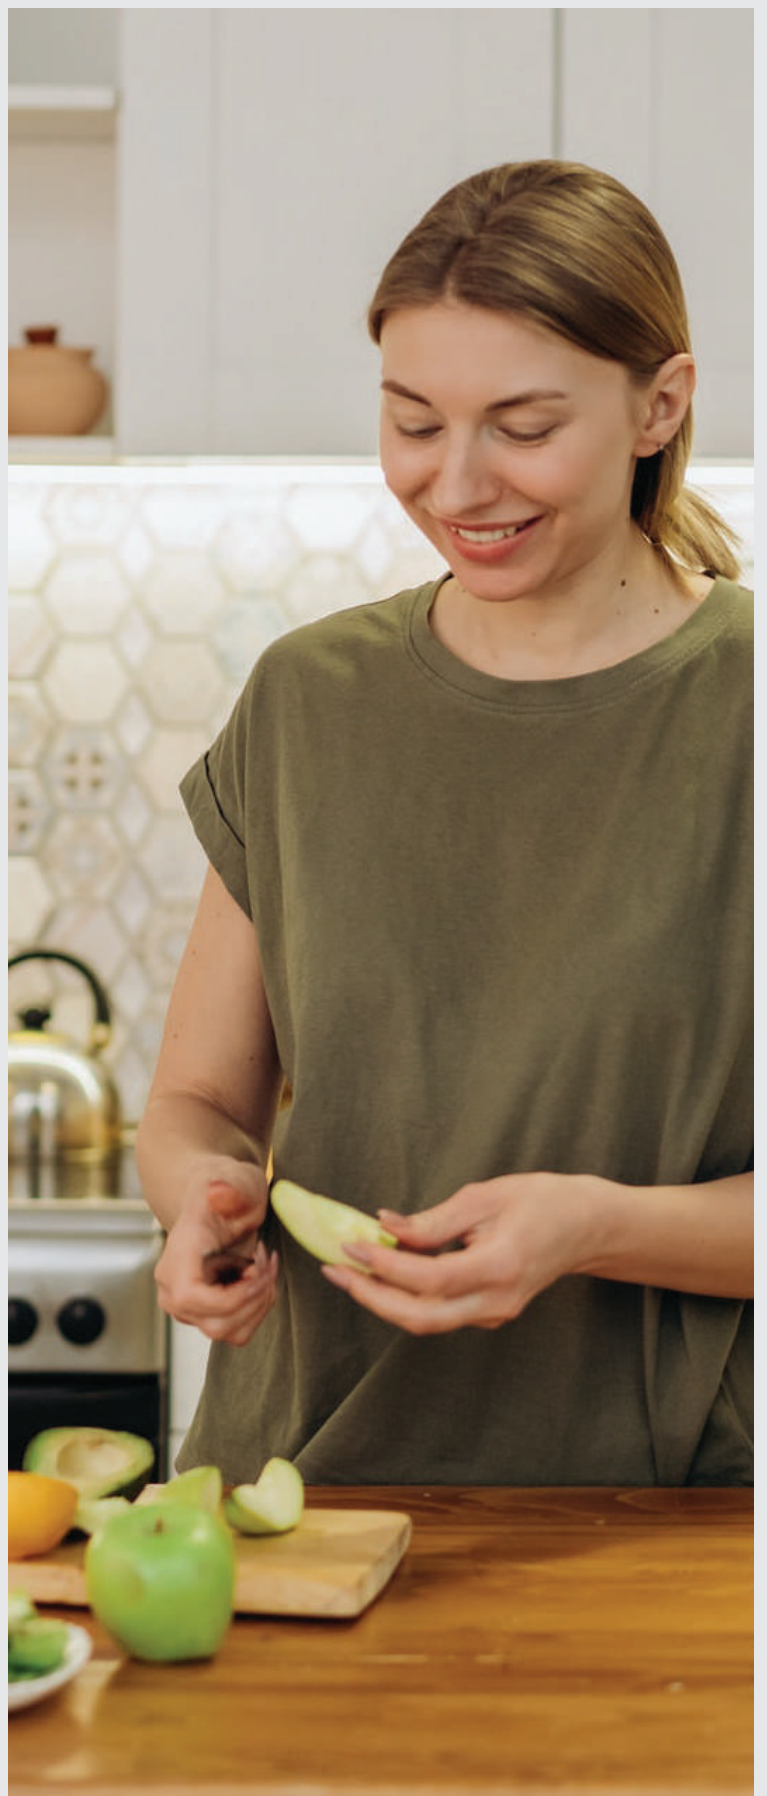

It cleans the burnt oil accumulated on kitchen appliances such as stove, oven, grill, fryer without the need for scrubbing or scraping. It gives very fast and easy results thanks to the oil dissolving chemicals, surfactants and alkaline substances it contains. Suitable with foam nozzle. It is not suitable for aluminum surfaces. It is used in cleaning places such as hotels, hospitals, restaurants and grills.

LIME REMOVER

PRODUCT CODE: K-26
Packaging: 20KG / 19 L Jerrycan - 5 KG /
4.75 L Jerrycan (5 KG - 4 Boxes) - 1 KG /
0.95 L Jerrycan (1 KG - 12 Boxes) - 750
GR / 712 ML Spray (750 GR - 12
Package)
pH Value: 1 - 2.5
Dosage: Direct use

It is used to clean the formations and dirt on all surfaces against encountering. It is used on glazed and metal surfaces in kitchens, toilets, bathrooms. It provides usage because it is liquid.

**STAIN REMOVER
PRE-DIPPING AGENT**

PRODUCT CODE: K-17
 Package: 20 KG / 16,6 L BIDON, 5
 KG / 4.16 L Jerrycan (5 KG - 4
 Boxes)
 pH Value: 12 - 14
 Dosage: 5-15 ML / L

It is a starch and stain remover pre-dipping agent. It provides the hygiene and preparation of coffee, starch stains that are formed in the food plates, glasses, stainless steel tea kitchen materials such as hotels, hospitals, restaurants, schools, workplaces by pre-dipping method.

**CHLORINATED ALKALI
FOAMED CLEANING AGENT**

PRODUCT CODE: K-27
 Packaging: 20 KG / 17,9 L Jerrycan
 pH Value: 12 - 14
 Dosage: 20 - 100 GR / Liter

It is used in the food industry to provide cleaning and hygiene. It is a foamy liquid product that provides cleaning and hygiene of open spaces, floors, tools and equipment. It is effective on protein, oil and blood stains. It is an effective hygiene provider because it is chlorine-based.

**ODORLESS GENERAL
